

AD100 Firm Ash Unveils a New Move-in Model Residence at Jolie on Greenwich

23.6K Unique Monthly Visitors

[Jolie on Greenwich](#) has just unveiled a stunning new move-in model residence, designed by the renowned AD100 firm [Ash](#). This exquisite [\\$3.05M residence](#) is situated on the 32nd floor of a dynamic tower designed by FX Collaborative, with interiors crafted by Deborah Berke Partners. Ash's primary objective was to create a space that exudes comfort and softness, juxtaposed against the towering skyscraper and featuring jaw-dropping views of the New York Harbor, Hudson River, and the Statue of Liberty.

Every inch of this two-bedroom, two-and-a-half bath 1,487 SF home has been thoughtfully designed to create an environment that elicits a deep exhale when one arrives home. The unique floorplan has been beautifully complemented with an array of rounded objects, including a custom sofa created by AD100 firm Ash, an oak dining room table, rounded Art Deco-inspired lamps, and a lacquered linen coffee table. Ash is the only AD100 firm that offers on-demand design service staging, giving clients exclusive access to a private collection of vintage and designer furnishings from prolific designers like Gio Ponti and Kelly Wearstler.

Residence 32B features a meticulously curated palette of sublime fixtures and finishes that are sure to impress even the most discerning of buyers. The wide plank white oak floors set the tone for the entire space, exuding warmth and sophistication at every turn. The wraparound floor-to-ceiling crystalline glass windows offer unparalleled views of the city, flooding the space with natural light and making one feel as though they are truly on top of the world. The unit also boasts an in-unit side-by-side Miele washer/dryer, ensuring maximum convenience and ease of living. Custom millwork has been incorporated throughout, adding a touch of elegance and providing ample storage space for all of your needs. Finally, the energy-efficient electric heating and cooling system, complete with variant refrigerant flow, ensures that the space is always comfortable and environmentally-friendly.
